London Trauma Conference

2

Royal Geographical Society, London. 9th - 11th December 2009

Incorporating the London Pre-hospital Care and Major Incident Conference. Including:

- Trauma, Transfusion & Haemostasis Research Symposium
- Core Topics in Trauma
- Stand Up Science and Simulation in Trauma Workshops.

Keynote Speakers:

Prof Keith Willett
Prof Jeff Upperman

Peter Baskett Memorial

Lecture:

Dr Jerry Nolan

Faculty Includes:

Prof Karim Brohi
Prof John Oxford
Prof Volker Wenzel
Dr Bob Winter
Dr David Zideman
Mr Simon Holmes
Dr Gareth Grier
Dr Dan Ellis
Prof Ari Leppäniemi

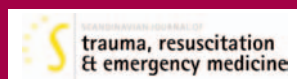

Prof Mitchell Cohen
Prof Anne Chamberlain
Mr Nigel Tai
Mr Tim Draycott
Dr Charles Deakin
Mr Graham Chalk
Dr Rod Mackenzie
Prof Peter Mahoney
Prof Hugh Montgomery
Dr Paul Frost

Dr Otto Chan
Dr Anne Weaver
Mr Alan Kay
Dr Dermot McKeon
Mr Henry Frydenson
Mr Mark Wilson
Prof John Holcomb
Dr Dietmar Fries
Dr Wolfgang Courte

BOOK NOW: Freephone 0800 917 8524 or visit www.londontraumconference.com

Conference organised in conjunction with:

Approved for
15 CPD Points

Conference Information: The Speakers

Professor Keith Willet

Professor of Orthopaedic Trauma Surgery, Oxford. National Clinical Director for Trauma Care at Department of Health. Chair of the British Orthopaedic Association's trauma committee, a national executive & board member with TARN & a past president of the British Trauma Society. Keith has an impressive research portfolio; having published work on acetabular & pelvic fractures, fractures in the elderly, limb fracture surgery, fracture biomechanics, accident prevention & clinical outcome studies of orthopaedic trauma surgery techniques.

Professor Jeff Upperman

Director of Trauma, Associate Professor of Surgery at the University of Southern California & an Attending Pediatric Surgeon at the Children's Hospital Los Angeles. Dr Upperman's biomedical research focuses on intestinal inflammation, sepsis & trauma. He publishes clinical work in the area of pediatric disaster preparedness, pediatric trauma & computerized physician order entry & has served his country as a US Army Reservist.

Professor Hugh Montgomery

Professor of Intensive Care at University College Hospital & Consultant in ITU at the Whittington hospital London. Director of the UCL Institute for Human Health & Performance. Hugh obtained a 1st class physiology BSc before graduating in medicine. He leads an active research group & reported the first 'gene for human fitness'. He has published on the genetics of outcome from injury & major trauma.

Professor Ari Leppaniemi

Chief of Emergency Surgery at the Helsinki University Hospital, Finland. He is the President of the Finnish Society of Surgery, & the Past-President of the International Association for Trauma Surgery & Intensive Care (IATISIC), & the European Association for Trauma & Emergency Surgery (EATES). He is the Editor-in-Chief of the Scandinavian Journal of Surgery, Editor of the European Journal of Trauma & Emergency Surgery, & Associate Editor of the World Journal of Surgery.

Professor Peter Mahoney OBE

Defence Professor of Anaesthesia & Critical Care Medicine for UK Armed Forces at the Royal Centre for Defence Medicine. He is a Colonel in the Army & Consultant Anaesthetist in Birmingham. He has extensive trauma experience in the UK & in numerous overseas centres.

Professor Karim Brohi

Professor of Trauma & Vascular Surgery, Barts & London NHS Trust, London. Founder of trauma.org Karim has extensive experience in trauma from many different countries. His main research interests lie in the effect of trauma on coagulation.

Professor Volker Wenzel

Associate Professor of Anesthesiology & Vice Chair, Department of Anesthesiology & Critical Care Medicine, Innsbruck Medical University, Austria. He graduated from Hannover, Germany & University of Florida. He has mentored 30 M.D. & 5 Ph.D. students & published 250 peer-reviewed publications. He is on the editorial board of three journals & has research interests in cardiopulmonary resuscitation, unprotected airway, major trauma & mentoring young scientists.

Professor John Oxford

Scientific Director of Retroviral Ltd & Professor of Virology at Barts & the London NHS Trust. He has authored seminal texts in virology & an acknowledged world expert on the pandemic flu.

Professor Mitchell Cohen

Assistant Professor of Surgery & Director of Acute Care Research in San Francisco. He graduated in medicine from Mount Sinai School of Medicine, New York. He did fellowships in Loyola University & San Francisco General Hospital & is board certified in Surgery & Critical Care. Dr Cohen has an active basic science research lab where he studies coagulation & inflammation after trauma. He is also actively involved in the San Francisco Injury Center with projects related to inflammatory lung injury & monitoring of resuscitation & coagulation after injury.

Professor Anne Chamberlain OBE

Emeritus Professor of Rehabilitation Medicine at Leeds University. Immediate past president of the European Academy of Rehab Medicine. Anne was one of the founders of the academic unit in Leeds & is widely published in the peer reviewed literature & authored many seminal texts.

Mr Tim Draycott

Consultant in Obstetrics & Gynaecology at Southmead Hospital, Bristol. Tim has worked in many countries including Sweden, France & S. Africa. His research interest is in patient safety, particularly multi-professional training, team working & quality assurance in obstetrics & he leads the PROMPT research group. This work has been recognised nationally with Tim's team being awarded Women's Health team of the year.

Dr Dermot McKeown

Consultant in Anaesthesia & Intensive Care at the Royal Infirmary of Edinburgh, & Honorary Senior Lecturer, University of Edinburgh. Chair the Scottish Trauma Audit Group. Dermott has been involved in most anaesthesia specialties, but has particular clinical interests in early resuscitation & critical care & is currently auditing resuscitation room use & emergency airway management.

Mr Graham Chalk

Lead Paramedic London HEMS. Graham has had extensive experience as a paramedic both in helicopter operations, motorcycles & fast response cars. He is responsible for the tasking of London HEMS & developed a model of tasking that is cited in national guidance as an example of best practice in the field.

Dr Jerry Nolan

Consultant in Intensive Care & Anaesthesia, Royal United Hospital Bath. Chairman Resuscitation Council UK. Co-Chair International Liaison Committee on Resuscitation. Editor in Chief Resuscitation.

Dr Paul Frost

Consultant in Intensive Care, University Hospital Wales. Paul has published widely on issues pertaining to intensive care & with his colleagues provides the only resident consultant ITU service in the UK.

Dr Otto Chan

Consultant Radiologist. Otto has specialist interest in trauma radiology & is an internationally renowned trauma radiologist. He has published widely on the topic & is the author of many books.

Dr Bob Winter

Consultant in Intensive Care Medicine at Queens Medical Centre in Nottingham. He is President of the Intensive Care Society & Medical Lead for the Mid-Trent Critical Care Network. He has published & lectured widely on critical care & trauma.

Dr Dan Ellis

Consultant in Emergency Medicine & ICU currently working at the Lister Hospital in Stevenage & clinical governance lead for the Essex & Herts Air Ambulance & retrieval lead for the HEMS London. Dan has extensive experience in Pre-hospital & Retrieval Medicine having worked in this field in Israel, the UK & Australia.

Dr Charles Deakin

Consultant Cardiac Anaesthetist Southampton General Hospital. Medical Director Hampshire Ambulance Service. Joint Royal College Ambulance Liaison Executive Committee Member. Chairman Hampshire BASICS. European Resuscitation Council Executive Committee Member..

Mr Nigel Tai

Consultant Surgeon in Trauma & Vascular Surgery at Barts & the London NHS Trust & Defence Medical Services. Nigel has had extensive experience in trauma through his military training both in the UK & abroad. He has published widely on the topic & authored several texts.

Mr Alan Kay

Defence Consultant Advisor in burns & plastic surgery for the UK armed forces. He is also a Consultant Plastic surgeon at Frenchay Hospital Bristol & Senior Lecturer in the Academic department of Military Surgery & Trauma at Royal Centre for Defence Medicine. He trained in London, Bristol & Sydney Australia.

Mr Simon Holmes

Consultant Maxillofacial surgeon at Barts & the London NHS Trust. He is clinical lead for maxillofacial trauma & has presented & written widely on the subject. He qualified in dentistry at Guy's Hospital & medicine at Guy's & St Thomas Hospitals. His higher surgical training was at St Bartholomew's & the Royal London Hospital.

Dr Rod Mackenzie

Senior Lecturer & Honorary NHS Consultant in Emergency Medicine, Leicester. Council Member Faculty Prehospital Care, Royal College of Surgeons. Prehospital Care Subcommittee member, College of Emergency Medicine. Rod is helping lead sub specialty recognition of prehospital care in the UK & has published in peer reviewed journals on PHC training.

Dr Anne Weaver

Consultant in Emergency Medicine & Prehospital Care, Barts & the London NHS Trust. Anne has had extensive experience in trauma care both in the UK & Australia & has an interest in the ethics of trauma resuscitation.

Dr David Zideman LVO(C) QHP

Consultant Anaesthetist at Imperial NHS Trust in London. He is immediate past chair of the European Resuscitation Council & the British Association for Immediate Care (BASICS). He is lead clinician for emergency care for the Olympic Games in 2012. He has published & lectured widely on resuscitation & pre-hospital care topics.

Dr Kevin Davies

Principal Lecturer at the University of Glamorgan & Commanding Officer of 203 (Welsh) Field Hospital (V). Kevin has been an Army officer since 1983 & has deployed to Bosnia-Herzegovina, Kenya, Kosovo, Iraq & Afghanistan in various roles including UN liaison, Nurse in Charge ED & command & appointments. He is a Member of the Royal Red Cross & Queens Honorary Nurse.

Mr Mark Cadman

Second-in-command & of Headquarter Squadron of 203 (Welsh) Field Hospital (V). Senior Charge Nurse & Trauma Practitioner in the Emergency Department of the Royal Gwent Hospital. Mark has been deployed to the Former Yugoslavia, Iraq & Afghanistan serving in a variety of roles including Regimental Nursing Officer deployed forward & as ED Nursing Officer.

Mr Henry Freydenson

Henry is experienced lawyer specialising in medicolegal work. His enthusiasm for medicine has led him to be successfully complete an ALS course. He has lectured widely & has media experience..

Mr Tim Harris

Consultant in Emergency Medicine at Barts & the London NHS Trust. & research lead for London Emergency Medicine Group. Tim has an active interest in role of ultrasound in Emergency Medicine & has directed many training courses on the same.

Dr Gareth Grier

Consultant in Emergency Medicine at Barts & the London NHS Trust. Gareth is lead for Trauma in Department Emergency Medicine & the medical module of the Helicopter Crew Course. He is a keen educator with responsibility for undergraduate EM training.

Mr Mark Wilson

Neurosurgical Registrar North East Thames. Mark has an active interest in neurotrauma & prehospital care & authored several texts.

Programme:

About the London Trauma and Pre-hospital Care Conference
This conference is the fourth in a series of events which address the issues that trauma and pre-hospital care organisers have arranged a programme which brings high quality speakers to address very specific key questions. The delegates are an enthusiastic and engaged audience and the overwhelming positive feedback in the past and we look forward to the next conference.

Day 1 : 9th December 2009

Start	Finish	Session	Talk Title	Speaker
08:45	09:15	Registration		
09:15	09:30	Introduction		Mr Mike Penning MP
09:30	10:00	Session 1: Supporting the cardiovascular system in trauma	Inotropes in Major Trauma	Prof Volker Wenzel
10:00	10:30		Mechanical Assistance of the Cardiovascular System in Trauma	Dr Charles Deakin
10:30	11:00		Cardiac Massage in Trauma	Dr David Zideman
11:00	11:25	Coffee		
11:25	11:50	Session 2: Thinking out of the box	How the Body Senses Danger?	Prof Karim Brohi
11:50	12:15		Genetics and Trauma	Prof Hugh Montgomery
12:15	13:00	Peter Basket Lecture	Management of the Trauma Airway: Past Present and Future	Dr Jerry Nolan
13:00	14:00	Lunch		
14:00	14:30	Session 3: Clinical Topics	Are Intercostal Drains Really Necessary?	Dr Bob Winter
14:30	15:00		Trauma Nursing Care	Mr Kevin Davis
15:00	15:30	Coffee		
15:30	16:00	Session 4: Systems	A Trauma System is Only as Good as its Dispatch	Mr Graham Chalk
16:00	16:30		Building a trauma system that stops bleeding	Prof Mitchell Cohen
16:30	17:00		Setting up a Trauma Centre	Mr Nigel Tai

Day 2 : 10th December 2009

Start	Finish	Session	Talk Title	Speaker
09:30	10:00	Session 5: Trauma Anaesthesia & ITU	RSI in the ED	Dr Dermott McKeon
10:00	10:30		Per Operative Trauma Anaesthesia	Prof Peter Mahoney
10:30	11:00		Intensive Care of the trauma patient	Dr Paul Frost
11:00	11:25	Coffee		
11:25	11:50	Session 6: The Road to Recovery	Trauma and getting a life back	Ms Kelly Griffiths
11:50	12:15		Rehabilitation of Trauma Victims	Prof Anne Chamberlain
12:15	13:00	Key Note Address 1	Trauma Systems: Turning Policy into Practice	Professor Keith Willet
13:00	14:00	Lunch		
14:00	14:30	Session 7: Surgery	Where Will Trauma Surgeons Come From in the Real World	Prof Ari Leppäniemi
14:30	15:00		Paediatric Solid Organ Trauma	Prof Jeff Upperman
15:00	15:30	Coffee		
15:30	16:00	Session 8: Clinical Topics	Dealing with Liver Trauma	Prof Ari Leppäniemi
16:00	16:30		Radiation is Good For You	Dr Otto Chan
16:30	17:00		Facial Injuries	Mr Simon Holmes

Day 3 : 11th December 2009

Start	Finish	Session	Talk Title	Speaker
09:30	10:00	Session 9: Difficult Issues in PHC	Prehospital Obstetrics – Delivering the Goods	Dr Timothy Draycott
10:00	10:30		Managing Difficult Prehospital Dilemmas	Panel:
10:30	11:00		Managing Difficult Prehospital Dilemmas	Panel:
11:00	11:25	Coffee		
11:25	11:50	Session 12: PHC Innovation	Prehospital Stroke Treatment - Ultrasound & Clot Lysis	Dr Tim Harris
11:50	12:15		Prehospital Neurosurgery	Mr Mark Wilson
12:15	13:00	Key note address 2	Paediatric Major Incidents	Prof Jeff Upperman
13:00	14:00	Dinner		
14:00	14:30	Session 13: Major Incidents	Debate: Simulation is all you need in prehospital training	For: Dr Rod Mackenzie Against: Dr Dan Ellis
14:30	15:00		Pandemic Flu – an update	Prof John Oxford
15:00	15:30	Coffee		
15:30	16:00	Session 14: Topics in Prehospital Care	Prehospital Time – how important is it?	Dr Dan Ellis
16:00	16:30		Prehospital Amputation	Mr Alan Kay
16:30	17:00		Research Update in Pre-hospital Care	Dr Rod Mackenzie

Conferences.

Asks key questions in trauma care, pre-hospital care and major incident management. The quality speakers who are experts in their fields, to a high quality central London venue to answer an international audience from wide professional backgrounds. The format has attracted a large audience and led to another excellent event.

About the Masterclass & Breakaway Sessions

An ever popular feature of the conference are the Masterclass & Breakaway Sessions. The Masterclass Symposium, chaired by Professor Karim Brohi and Core Topics in Trauma, which includes oral presentations will be made without the use of powerpoint to a lively audience. As these sessions are limited so early booking is advisable.

Question 1	Question 2
When to use inotropes?	Which inotrope should we use?
Should we be using a balloon pump	Is there a role for bypass?
Should cardiac massage be performed in traumatic cardiac arrest?	When should we use mechanical assistance?
Is the outcome from head injury pre-determined?	Is the SIRS response to trauma pre-determined?
When does traumatic pneumothorax require an ICD?	When does traumatic haemothorax require an ICD?
How specialised does it need to be? & Mr Mark Cadman	What have recent conflicts taught us about nursing provision?
What advice is given to major trauma victims whilst EMS is responding?	Is it possible to detect serious trauma on the first emergency call?
What systems should be in place?	Are their novel therapies with promise?
How many trauma patients do we need?	What are the essential governance tools?

Question 1	Question 2
What are the indications?	Should there be one protocol?
Does one anaesthetic fit all serious trauma patients?	What are the drugs of choice?
Are trauma patients different to other ITU patients?	What improves outcome?
What happened?	Making Sense of the acute phase of care
How have rehabilitation strategies changed?	Can civilian services learn from the military?
Are there problems with training and throughput?	What are the worldwide variations & solutions
When is surgery not required?	What is the role of permissive hypotension?
Which injuries can be managed conservatively?	What are the key surgical techniques?
How realistic is the radiation threat?	What are the issues?
How big a problem is it?	How to stop the bleeding?

Question 1	Question 2
Difficult delivery before arrival in hospital	What is the role of perimortem caesarean section?
"Turn that camera off" Weaver/ Grier / Frydenson	"I don't want to go to hospital"
The uninvited medical helper Weaver/ Grier / Frydenson	"Just sedate him"
What does the literature tell us?	How does it work?
Is there monitoring that could help us?	Could prehospital craniectomy be performed?
What are the implications of recent events?	How have major incident plans advanced?
Have we been misled in the past?	What should we be aiming for?
Is it ever necessary?	How should it be done?
What has changed our pre-hospital practice?	What might change our PHC practice?

essions run alongside the main conference programme. This year we are offering four events, including the Trauma, Transfusion & Haemostasis Research which is aimed at junior doctors, nurses, paramedics and medical students. In addition there will be two free events: a Stand up Science evening where short science and a trauma simulation demonstration. To find out more details on all of these sessions please visit www.londontraumaconference.com. Places at

Question 3

Recent research – What are the potential benefits or hazards?

Are there other alternatives?

Is there a role for internal massage?

What are the potential practical applications of current genetic research to trauma care?

Are there alternatives?

How can we improvise in resource poor environments?

What are the common pitfalls?

What is proven to work?

What improvements in outcome should we expect?

Masterclass & Breakout Sessions

Simulation in Trauma

09.30 - 17.00

This Laerdal sponsored workshop explores the role of high and low fidelity mannequins in trauma training.

For more details visit: www.londontraumaconference.com

Question 3

What constitutes good governance?

What physiology should we be aiming for?

What physiology should we be aiming for?

What are the obstacles to full recovery?

What levels of function can be achieved?

Is the specialty of acute surgery the answer?

How low should BP go?

When to consider interventional radiology?

Are there alternatives?

What are the latest treatment innovations?

Masterclass & Breakout Sessions

Core Topics in Trauma

09.30 - 17.00

This breakout session is aimed at junior doctors, nurses, paramedics & medical students and covers key topics in trauma delivery. Subject matter is delivered in lecture format by experienced trauma clinicians.

Stand Up Science Evening

19.00 - 21.00

An informal evening session of academic presentations. Each presenter will be given just four minutes to outline their research, with participants ranging from med students to consultants, having to convince a panel of experts and a skeptical audience that their research project was worth listening to. For more details on these events visit: www.londontraumaconference.com

Question 3

Is hypotensive resuscitation an option in the bleeding obstetric patient?

What equipment is necessary?

When could it be considered?

Are international approaches to guidelines and management different

Which diseases are most sensitive?

What are the pitfalls?

How can we move on in the absence of well conducted trials?

Masterclass & Breakout Sessions

Trauma, Transfusion & Haemostasis Research Symposium

09.30 - 17.00

This state of the art symposium covers key issues in trauma transfusion and haemostasis. With an international faculty of leading speakers it should prove a must for all clinicians interested in this field of trauma care.

For more details visit: www.londontraumaconference.com

London Trauma Conference

Registration Form:

Please complete the form below and post back to Medical Excellence Ltd, 25 Wood Lane Close, Iver, SL0 0LH, United Kingdom. Alternatively you can register your place via Telephone on 0800 917 8524 or online at www.londontraumaconference.com

All fees are quoted in £ Sterling and are exclusive of 15% VAT which will be added at the time of booking.

How to Register

Online – Visit www.londontraumaconference.com and complete the online booking form

Via Telephone – For all enquiries or assistance in reserving your place please call: **0800 917 8524**

Via Post – Please complete the attached booking form and either post to: Medical Excellence Ltd, 25 Wood Lane Close, Iver, SL0 0LH UK.

Payment Methods

Payment is accepted via Credit or Debit card. If you would like to pay by an alternative method or wish to discuss a group booking please call: **0800 917 8524**

Terms & Conditions

1. Completion of a signed booking form, online registration, or a telephone credit card booking all constitute a confirmed booking.
2. All payments must be made in UK £.
3. Cancellations received in writing 6 weeks before the event will be subject to a 20% cancellation fee. After this time, we regret that no refund is available. However, we will accept a named substitute delegate.
4. Speakers and programme are correct at the time of going to press. However Medical Excellence Ltd reserves the right to make changes without prior notice.
5. Medical Excellence Ltd does not accept liability for cancellation due to exceptional circumstances beyond its control including, but not limited to, extreme weather events, civil disturbance, and acts of war or terrorism.

London Trauma Conference

Venue:

The Royal Geographical Society is located in Kensington on the junction between Exhibition Road and Kensington Gore, the main entrance is on Exhibition Road.

Address

1 Kensington Gore, London SW7 2AR

Rail

London Paddington & London Victoria are the nearest main line railway stations. Walking from Paddington takes 25 minutes.

Bus & Underground

Several bus routes stop outside the Society:

9 – from Hammersmith to Aldwych

10 – from Hammersmith to King's Cross

52 – from Willesden to Victoria

360 – from Kensington to Elephant & Castle

452 – from Wandsworth to Willesden

It is about 10-15 minutes walk from South Kensington tube. South Kensington is on the Circle, District and Piccadilly Lines. Knightsbridge station on the Piccadilly line and Lancaster Gate Station on the Central line are about 15 minutes walk.

Bicycle

Bicycles can be locked against one of the two bike stands which are located next to the main entrance to the building (along Exhibition Road).
